HOW TO USE YOUR EEM FILE SYSTEM

2 Easy Steps to Set Up Your eem File System

Simply mark 43 standard file folders with the **eem** Product Section Numbers.

Refer to the PRODUCT-TO-SECTION INDEX to determine which **eem** Product Section Numbers are to be used on your literature.

1977-78 INDEX FOR LOCATING PRODUCTS IN THE eem FILE SYSTEM

The **eem** File System is divided into 43 Product Sections coinciding with **eem's** Catalog Section (white pages). Use this Index to file and locate specific products within each of these sections.

As you receive manufacturers' catalogs, technical bulletins or clip magazine articles, jot down the proper Product Section Numbers from the **eem** PRODUCT-TO-SECTION INDEX and file. When you require information on a specific product, refer to the PRODUCT-TO-SECTION INDEX to locate the correct file folder. It's simple and you'll always have at your fingertips the necessary data to compare, specify and buy.

TO FILE PRODUCT DATA	from ELECTRONIC PRODUCTS Magazine or from other sources: Merely check this Index to determine the correct Product Section Number. File the items in the folders corresponding to these numbers.
TO FILE PRODUCT LITERATURE	from ELECTRONIC PRODUCTS Magazine or from other sources: Merely check this Index to determine the correct Product Section Number. Then simply file in the appropriate folder.
TO LOCATE	. . . When you wish to refer to data in your files, use this Index, it locates the proper folder simply and rapidly. This index supersedes all previously published **eem** indexes.

To order a complete eem File System including 45 file folders with the eem product sections printed on them, an extra set of gummed labels for expanding the system and a product index booklet, just send $10.00 in check or money order to: United Technical Publications, 645 Stewart Ave., Garden City, N.Y. 11530, Att: Circulation Dept.

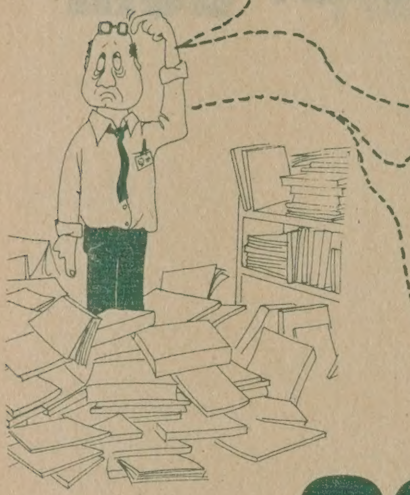
What can I use to keep all the manufacturers' product data I receive in order?

What system makes filing or retrieving manufacturers' catalogs fast and easy?



Which file system have thousands of engineers purchased because they know it works?

eem FILE SYSTEM

THE ONLY FILE SYSTEM DESIGNED SPECIALLY FOR THE ELECTRONIC ENGINEER!

The publishers of **eem** have put together a unique filing system for electronic product information. The complete system includes: a product index booklet which classifies electronic products into 3,000 listings both alphabetically and by product group, and 45 file folders imprinted with the **eem** product sections (extra gummed labels included for expanding the system.)

As you receive manufacturers' catalog data sheets, technical bulletins, or clip magazine articles, jot down the proper Product Section Numbers from the **eem** PRODUCT-TO-SECTION INDEX. Then simply file in order. When you require information on a specific product, refer to PRODUCT-TO-SECTION INDEX again to locate the correct file folder. It's simple, and you'll always have the necessary data to compare, specify and buy, right at your fingertips.

Here's how to order your eem FILE SYSTEM:

For the complete system send $10 (plus tax; N.Y., 8%, CA, 6½%) in check or money order to:

United Technical Publications, Inc.,
645 Stewart Avenue, Garden City, N.Y. 11530
Att: Circulation dept.

For an **eem FILE SYSTEM** without file folders send $7.50 (plus tax; N.Y. 8%; CA, 6½%).
